Gallery Art Prime presents the sculptural composition

# Fire Cross: Intersection of the World

This vision is for a monument commemorating the 11th September tragedy, a towering vertical edifice with the suggestion of a human being inside, in active space. This figure is the spiritual reincarnation and connective force of the victims of 9/11.

The event took place in Downtown Manhattan, but resonated with the whole world. The Fire Cross is testament of mankind's aim toward a progressive and peaceful society. It serves as a warning against contracting with destructive forces, and to barbarians and terrorists it proclaims: democracy and freedom are invincible.
